INTERNATIONAL JOURNAL OF

## Artificial Life Research

**IGI PUBLISHING**  
Publisher of IT books, journals and cases since 1988  
[www.igi-global.com](http://www.igi-global.com)

ISSN: 1947-3087; EISSN: 1947-3079

Established 2010; Published Semi-Annually

**Editor(s)-in-Chief:** Maki K. Habib (The American University in Cairo, Egypt)

The **International Journal of Artificial Life Research (IJALR)** provides a forum on the study of living systems, human level artificial systems, and machines that exhibit intelligent autonomous behavioral characteristics. Presenting researchers and practitioners with access to explore the developments of life-like or human-like forms of systems, IJALR promotes research in emerging disciplines of artificial life to improve and comprehend real-world problems. This journal publishes all concepts, theories, systems, and procedures that exhibit properties, phenomena, or abilities of any living system or human.

### Topics Covered:

- Adaptive autonomous robots
- Agent-based systems and modeling
- Approximate reasoning
- Artificial computational agent societies
- Artificial immune systems and intelligence
- Biologically-inspired computation
- Biologically-inspired engineering
- Cellular automata
- Complexity theory and chaos
- Computational Linguistics
- Emergence theory
- Evolutionary Algorithms
- Evolutionary art, learning systems, and music
- Evolutionary robotics
- Flocking and swarming behaviors
- Genetic algorithms
- Genetic Programming
- Intelligent and learning theory
- Intelligent autonomous and adaptive agents
- Intelligent cognitive modeling
- Intelligent management
- Intelligent Manufacturing and planning
- Machine Learning
- Models of living-system's behavior and social organization
- Multi-agent systems and simulation
- Neuro-computing
- Soft computing and fuzzy logic
- Stochastic optimization
- Swarm Intelligence
- Virtual Worlds

### SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <http://www.igi-global.com/journals/guidelines-for-submission.aspx> PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:

Maki K. Habib, [IJALR@igi-global.com](mailto:IJALR@igi-global.com)

All manuscript submissions to IJALR should be sent through the online submission system:

## EDITOR-IN-CHIEF BIO

**Maki K. Habib** is a Professor at the Mechanical Engineering Department, School of Sciences and Engineering, American University in Cairo, Egypt. His main areas of research are focused on human adaptive and friendly mechatronics, autonomous navigation, service robots and humanitarian demining, teleoperation, distributed teleoperation and collaborative control, flexible automation, wireless sensor networks and ambient intelligence, biomimetic and biomedical robots.
